<b>Sub total</b>	<b>677</b>
<b>Outreach evangelism</b>	
Lukole A refugees camp	<b>34</b> Now repatriation was already taken off
<b>Grand total</b>	<b>2.095</b> - Without Lukole refugees camp

#### Future prospects 2008

1. To reinforce the income generating activities particularly on the agro forest projects. In Ngara area there still a lot of unutilized land hence it's very possible to acquire enough land at a low cost. Each congregation, plants trees for protection of her environment and for cash earning. With this, the Ngara Mission has decided to own a forest at Kasharazi. Already 25 acres of land has been acquired and tree planting each year is proceeding. This project was inaugurated by Hon. Rt. Rev. Bishop Dr. Benson Kalikawe Bagonza in 2007 November.

2. To establish a development center at Benaco/ Njiapanda where various skill classes can be conducted e.g. carpentry, computer, mechanical and Petrol station services, masonry, languages, women activities etc. This complex can also have some rest houses and give us some earnings to keep of our mission activities.
3. To provide more trainings to staff as part of capacity building. We expect to train the Evangelists in Bible schools, at time we have 4 student at Nkwenda Karagwe. We expected to train the existing staff, we are currently having 2 evangelists at Mugoma Secondary School. We have trained 2 kindergarten schools teachers, we need to train more and open more schools in our situations. We expect to train theological students from Ngara district.
4. Construction of Katenga Dispensary. Apparently, we are in final stages for implementation
5. Renovation of Ngara mjini tenant's building for income.
6. To establish Evangelism at least ¾ of the district to be covered with our congregation services.
